Subject: Letter of Recommendation for RIK SINGHA**Dear RIK SINGHA**

It is with great pleasure that I write this **letter of recommendation** for **RIK SINGHA**, who successfully completed an internship with LaunchED in the domain of **Web Development** during the period **June 2025-July 2025**

Throughout the internship, RIK SINGHA demonstrated a high level of dedication, professionalism, and eagerness to learn. He consistently delivered assigned tasks with precision and timeliness, showing a strong grasp of both theoretical knowledge and its practical applications. His ability to quickly adapt to new challenges and contribute effectively to team discussions was commendable.

We were particularly impressed by his work on Capstone project, where he showcased problem-solving abilities, technical skills, and a collaborative attitude. He also exhibited excellent communication skills and a positive work ethic, making a strong impression on mentors and team members alike.

I believe RIK SINGHA's internship experience with us has equipped him with valuable industry insights and professional competencies that will serve him well in his future academic or career pursuits. I am confident that he will be a valuable asset to any institution or organization he choose to be a part of.

Please feel free to contact us should you require any additional information.

Wishing RIK SINGHA all the best in his future endeavors.

Utkarsh Singh Yadav

The Hiring Manager

Application for the Position of Python Developer / Backend Developer & Web Developer

Dear Sir/Madam,

I am writing to express my strong interest in the Python Developer / Backend Developer position at your esteemed organization. With skills in Python, Flask, FastAPI, MySQL, JavaScript, HTML, CSS, and API development, I am eager to begin my career in the IT industry and contribute effectively to your engineering team.

Coming from a middle-class background, my academic and professional journey has been both unconventional and inspiring. I am currently pursuing my Bachelor of Computer Applications (BCA) at Uttaranchal University, having resumed my studies in 2021 after a short break. This journey strengthened my determination, discipline, and ability to learn independently.

My passion lies in Python programming, backend development, and building scalable web applications. I continuously enhance these skills through hands-on projects and structured learning. I completed a Mentorship Program on Web Development with Launched Global and DeeveloX (June 1 – July 31, 2025), where I gained practical experience in developing responsive and user-friendly applications and was recognized for my enthusiasm and learning ability.

I also completed the GenAI Powered Data Analytics Job Simulation (September 2025) from Forage, gaining exposure to data exploration, predictive modeling, business reporting, and AI-driven decision-making – sharpening my analytical and problem-solving skills, which support backend development.

My experience at Apollo Pharmacy and M-Pocket (Kolkata) helped me build strong soft skills including team coordination, quality management, communication, and customer handling. These roles strengthened my ability to work under pressure, collaborate effectively, and adapt quickly – qualities I believe are as important as technical skills.

I am confident that my blend of technical knowledge, practical experience, and strong work ethic will allow me to contribute meaningfully to your organization. I am highly motivated to learn, grow, and deliver impactful solutions as part of your development team.

Thank you for reviewing my application. I would be grateful for the opportunity to contribute and grow within your organization.

Sincerely,
Rik Singha
